

ISME 2020-2022

Ambassador activities in México

Ambassadors in Mexico have continued to communicate and explain the relevance of microbes in the health of individuals, communities and ecosystems. Particularly during the CoVid-19 pandemic, we have been greatly involved with talks, mentorships, and emphasizing the relevance of microbes and microbiomes.

Following up on the footsteps of the 1st ISME Lat, the 2nd ISME Lat, organized by the Universidad de los Andes, the ambassadors for Colombia, and the ISME Lat community, was also a great success.

ISME Lat ambassadors supported this event.

We had pre-congress workshops, talks, and overall a strengthening of the community.

See you in Argentina 2023!!!
